PROFESSIONAL SUMMARY

Software engineer with nearly four years of experience spanning full-stack development (Angular, Java, Spring Boot) and QA automation (Selenium, Cucumber) at Infosys, now pursuing an MPS in Software Engineering at UMBC while building applied AI skills through an AI-powered campus navigation project. Combines strong technical delivery with proven leadership — coordinating stakeholders, mentoring peers, and managing project work for groups of 20+.

TECHNICAL SKILLS

Full-Stack Java: Java, Spring Boot, Angular, REST APIs, SQL, PostgreSQL, MongoDB

QA Automation: Selenium (POM, Data-Driven), Cucumber (BDD), JIRA, Agile/Scrum

Applied AI: Python; building ML/AI foundations through UMBC coursework and the Waypoint project below

Cloud & Tools: AWS, Docker, CI/CD, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Senior Systems Engineer — Infosys Limited

Nov 2022 – May 2026

Hyderabad, India

- Developed scalable full-stack features for an internal Employee & Project Management application (Alcon) using Angular, Java, and Spring Boot, improving performance and usability for internal stakeholders.
- Built and optimized REST APIs and backend services with Spring Boot, improving system reliability, response times, and integration across microservices.
- Designed SQL queries, stored procedures, and data-cleansing workflows that eliminated duplicate employee records and improved trust in billing and analytics data.
- Improved database performance through index optimization and query tuning, enabling sub-second response times during peak traffic.
- Built a maintainable Selenium-Cucumber BDD automation framework for the Spectrum.net Self-Service Portal (Charter Communications), automating 5,000+ test cases and reducing manual regression effort by over 80%.
- Coordinated with cross-functional teams and stakeholders on requirements, documentation, and delivery timelines for enterprise-scale releases.

PROJECTS

Alcon — Full-Stack Development

Angular, Java, Spring Boot

- Developed responsive Angular UI components integrated with Spring Boot REST APIs for end-to-end functionality.
- Optimized backend business logic and API performance while ensuring secure data handling across services.

Infosys-internal Employee & Project Management system used to track employee details, project assignments, and reporting.

Charter Communications — QA Automation

Selenium, Java, Cucumber

- Automated 5,000+ end-to-end regression test cases using Selenium WebDriver, Java, and Cucumber (BDD), reducing manual testing effort and increasing release confidence.
- Managed task tracking in JIRA within an Agile team, contributing to daily stand-ups and sprint planning.

Spectrum.net Self-Service Portal — Charter Communications' customer-facing platform used by millions of subscribers to manage internet and cable accounts online.

Waypoint — Applied AI

AI Campus Navigation Assistant, UMBC

- Built an AI-powered campus assistant that automates wayfinding through a conversational chat interface paired with turn-by-turn navigation.
- Designing a faculty-advised research study comparing AI-guided, GPS-style, and traditional map navigation to measure how automated guidance affects spatial learning and memory.

LEADERSHIP & CAMPUS INVOLVEMENT — GUDLAVALLERU ENGINEERING COLLEGE

Ladies Representative, Student Council

Aug 2018 – May 2022

- Served as primary liaison between 50+ students, faculty, and administration for 4 consecutive years, handling confidential matters with discretion; recognized with 4 consecutive years of Appraisal Awards for leadership.

Event Coordinator, RACE Club

Aug 2021 – May 2022

- Planned and led logistics for technical workshops and seminars for 200+ attendees, coordinating guest speakers, scheduling, and resources.

Lab Mentor, Department of Civil Engineering

Aug 2021 – May 2022

- Supported faculty with lab operations, student guidance, and practical exam proctoring.

EDUCATION

MPS, Software Engineering

Aug 2026 – Present

University of Maryland, Baltimore County (UMBC)

B.Tech, Civil Engineering

Jun 2018 – May 2022

Gudlavalleru Engineering College (GEC)

ACHIEVEMENTS

- Pratibha Award, Government of Andhra Pradesh, for academic excellence
- Infosys Performance Recognition for outstanding project contributions
